Enzyme Therapy Facial

Exfoliating papaya-pineapple enzyme separates dry, dead cells and lifts them from the skin making this the perfect mini treatment to brighten your skin.

Body Glow

Increase lymphatic drainage with our special dry brushing technique to detoxify your body and improve immune strength while smoothing skin.

Bikini Wax

Basic waxing and tidying of the sides and across the top of the panty line or 'bikini' area.

Brow Tint

We use semi-permanent dye to enhance, shape, darken, and define your eyebrows creating the illusion of thicker, fuller, and longer brows.

Essential Manicure

Thorough nail and cuticle care, nail shaping and filing, exfoliating scrub and lotion application, completed with the nail color polish of your choice.

Gel Manicure

This manicure uses gel nail polish that is cured with a UV nail lamp to create a shiny, long-lasting manicure that doesn't require extensive time to dry.

Please note: If you currently have gel, removal is an additional 10 minutes at \$10 fee. Please let our coordinator know you need removal when scheduling your appointment.

European Back Mud Mask

Revitalize and refresh your core while softening your skin with our mud mask applied to your back – while you rest, enjoy a relaxing foot massage.

NeuroMotion Therapy

Combining synchronized light, vibration, and motion to calm the brain and nervous system, this relaxing motion therapy allows your body to naturally relax.

Mini Massage

Designed for site specific massage such as neck, shoulders, or problem areas or as a quick massage refresher to relax and renew.

Sole Serenity

Relax while we wrap your feet in hot towels before exfoliating your lower legs and feet to prepare them for a relaxing aromatherapy foot massage.

Total Tranquility

This relaxing facial massage can change your mood and enhance deep relaxation using hot towels, aromatherapy, and face/head massage techniques.

Hot Stone Back Indulgence

Warmed smooth stones are used to promote deep muscle and tissue relaxation, to relieve pain, increase circulation, and alleviate tension.
